Re: 10/774721

Please carry out the following sequence searches in the above application:

1. A score over length search of SEQ ID NO:21, looking for oligos 10 to 100 nucleotides in length, that are at least 70% identical to SEQ ID NO:21.
2. A standard search of SEQ ID NO:21 against the nucleic acid databases.
3. A length limited search of SEQ ID NO:37, limited to fragments of 100 nucleotides or less, that have at least 90% identity with SEQ ID NO:37.

Thanks,

Louis Wollenberger
